Colour: RAL 7035 light gray and RAL7024 dark gray

A series of gun safes designed for storing both hunting and sporting weapons. Specific feature of the model is the outside depth which is equal only to 140mm. This enables to locate the safe in a wardrobe or shallow niche.

Due to the possibility to adjust the height of the storage boxes and rifle holders - the inside configuration can be changed according to individual needs in order to conveniently fit the rifles of different height.

The standard equipment of the safe includes the functional storage boxes located on the left of the partition wall.

Right side of the safe is designed for storing rifles. Due to the fact that the inner height is up to 1494 mm, there is a possibility to store particularly long gun.

On the inside door cover there is a hook bar for hanging keys, binoculars and other items of everyday use.

Storage boxes/shelves on door do not occupy the inside space of the safe due to the new construction of the door cover plate.

The safe is equipped with the foam carpet at the bottom.

Lock

-as standard: key lock class I VdS/ IMP class A

-optional electronic locks against surcharge:
